1. On 27 July 1955, a conference took place which was attended by representatives of all important plants participating in the Dresden-Klotzsche construction project. The conference was held at the order of the Central Projecting Office of the Ministry for Heavy Machine Construction in the VEB Stahlbau Lichtenberg offices. 25X1
2. It was announced at the meeting that the enterprises engaged in the Dresden-Klotzsche project have received all the material allocations which were lacking. Allocations for all material needed for the Pirna-Sonnenstein project and the Dresden-Klotzsche airfield have been made. The material is to come from the material reserve for the second half of 1955 and bears the allocation number 88,000.
3. At present, 50,000 screws (8 x 65 mm.), used for assembling the steel-mesh reinforcing mats for the take-off runway at the Dresden-Klotzsche airfield, are lacking. Concrete for the runway cannot be poured until the mats are assembled.
4. Work on the test stands for turbines at VEB Industriewerke Dresden has been speeded up. At the conference mentioned, special importance was attached to the early completion of these turbine test stands.
